## STAMPATO A CALDO - HOT PRESS

### HEISS GEPRESST - MODELADO EN CALIENTE - PRESSE A CHAUD

Il ferro riscaldato viene costretto, tramite la pressione di una pressa, all'interno di uno stampo che corrisponde alla forma che deve assumere il pezzo finale.

The pressure exerted by a press machine forces the heated iron inside a mould.  
The shape of this mould corresponds to the final piece you want to get.

Das heisse Eisen wird durch den Druck einer Presse in ein Werkzeug gepresst und nimmt dessen Form an.

A través de la presión ejercitada por una prensa, el hierro calentado es obligado en un troquel (matriz) correspondiente a la forma que la pieza final tiene que tomar.

La pression fait avec une presse force le fer chauffé à l'intérieur d'une matrice qui correspond à la forme que la pièce finale doit prendre.
