INNOVATIVE DESIGN

Fluo is the new modular system that fits your requirements nearly perfectly. Its attractive, contemporary design compliments any kind of merchandise, making every product really stand out. Thanks to its characteristics, Fluo is suitable for the enhancing of displays, shop windows or complete store fixtures.

DESIGN INNOVATIVO

Innovativo nei materiali e nel design, Fluo e' il nuovo sistema espositivo atto a soddisfare perfettamente le esigenze del punto vendita. Grazie alle sue caratteristiche, Fluo e' il prodotto ideale per la realizzazione di display, corner, vetrine e arredamenti completi.

FLEXIBILITY

Fluo modular system offers many accessories that come in different colours and in several sizes and shapes. Fluo system can be installed floor to ceiling or wall mounted. It can incorporate shelving, hanging and signage. A flexible, interchangeable system of components allows you to achieve a high degree of customisation, to suit your unique needs.

FLESSIBILITA'

I numerosi accessori rendono Fluo estremamente versatile e adatto ad esporre, con la massima originalita' e con il massimo risalto, qualsiasi tipo di prodotto.

COLOURS

A full range of colour options is available:
from crystal transparent to refreshing
aquamarine, from stylish blue to trendy fluo
yellow and fluo orange.

fluo yellow / giallo fluo
fluo orange / arancio fluo
fluo red / rosso fluo
aquamarine / acquamarina
blue / blu
transparent / trasparente
frosted / ghiacciato
white / bianco

COLORE

La gamma dei colori disponibili va dal classico trasparente al freschissimo aquamarina, fino ad arrivare ai colori piu' trendy e alla moda, nelle tonalita' dell'arancio, del giallo, del rosso e del blu.

FLUORESCENCE

Fluo shelves are made from a new innovative material, whose special feature is long afterglow.

When light passes through the shelves, you get a particular visual effect: their edges appear to be lit by fluorescent light, even in the absence of any electrical power. This effect can also be obtained during nighttime, by using a UVA lamp.

FLUORESCENZA

I ripiani della linea Fluo sono realizzati in un innovativo materiale acrilico, che si 'illumina' quando e' attraversato dalla luce.

Grazie a questa caratteristica, i ripiani appaiono luminescenti lungo i bordi, pur senza l'ausilio di alcuna fonte di illuminazione.

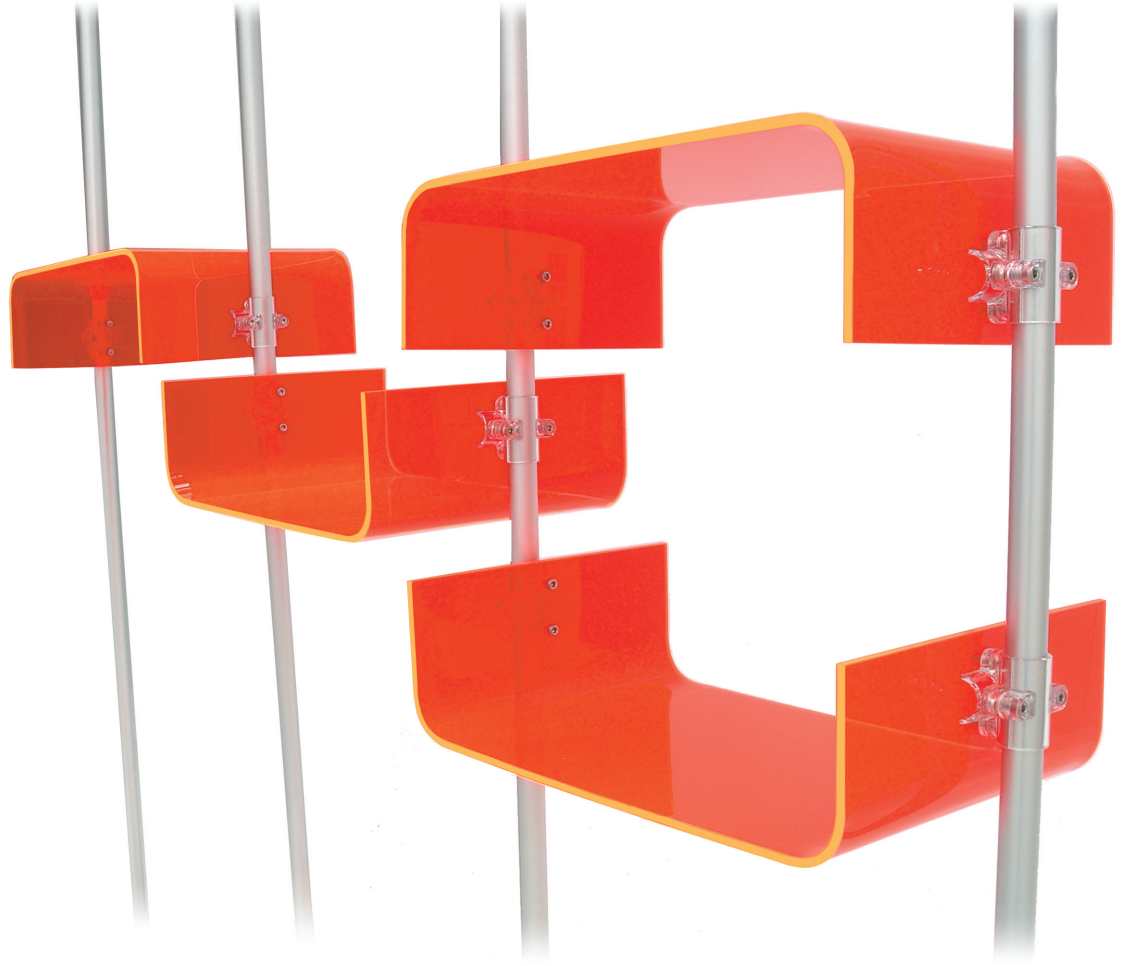

Tale peculiarita' puo'essere mantenuta anche durante le ore notturne, grazie al semplice utilizzo di una lampada UVA.

INSTALLATION

The system is designed for easy and quick installation. The absence of welded joints and holes means that the configuration and size of each composition can be modified whenever you like.

Thanks to their light weight and agile handling, structures can be easily moved around when needed.

Non-invasive installation and easy handling enables you to completely renovate your store in a few hours, achieving impressive results in a very short time.

INSTALLAZIONE

Tutte le componenti del sistema Fluo sono di facilissima installazione. La velocità di configurazione e la semplicità di montaggio rendono Fluo il sistema ideale per un punto vendita in continua trasformazione.

In breve tempo ciascuna composizione può essere modificata o spostata all'interno del negozio.

Code/Code	Description/Description	Code/Code	Description/Description
CRPM60 - TR - AR - AZ - GV - RD - BI - WF	Mensola acrilica curva a forma di "U" <i>U-shaped acrylic curved shelf</i> Dim lxxh mm : 600 x 370 x 175 Materiale/Material : PMMA	DK3PM3- TR - AR - AZ - GV - RD - BI - WF	Ripiano circolare con foro centrale passante / <i>Round shelf with central hole</i> Materiale/Material : PMMA Dim lxxh mm : Ø 370 x 5
